

Paper outline

Syllabus	New – 2016
Unit	Community Fire Risk Management
Level	SFF

Prescriptor:

An in-depth study of the principles of Community Fire Risk Management. This paper draws on a wide range of knowledge and on specific activities to demonstrate ability to draw relevant strands together in reviewing evaluating live situations.

Content:

The paper consists of 1 module:

1. Community Fire Risk Management

Learning Outcomes:

Studying for this unit provides the opportunity to develop knowledge in Community Fire Risk Management.

Candidates who achieve this unit should be able to:

- Identifying fire risks in your community
- Describe effective methods of fire risk management promotions
- Outline the advantages and methods of working with children and young people
- Be familiar with the FAIP and Firewise programmes
- Understand why we investigate fire

Learning Strategies:

1. Learning methods will emphasise student-centred learning and self-directed study.
2. Learning strategies will include access to online material, reading lists, links to videos, and case studies.

Assessment Methods:

The assessment takes the form of one written two-hour examination. The examination contains ten multiple choice questions and three long answer questions.

Learning Resources:

The following Volunteer Senior Fire Fighter TAPS training modules:

- Module Two – Community Fire Risk Management
- Module Two – Topic 3 – Why we investigate fire

Paper Content: Unit Paper Plan Guide

Syllabus	New 2016
